company info

The company, run by Romualdi's family, hired 15 skilled workers able to guarantee high standards of artisanal products made of naturally seasoned wood coming from French and Slovenian forests.

The company goal is to provide a cutting edge service with regard to the production of barrels and vats of all sizes, according to customer's requests.

The construction of the barrels is done according to a traditional procedure: the curvature of the staves is done with steam, in order to ensure stability to the wood and get rid of bitter tannins.

products

F.lli Romualdi's company has been working for five generations in the area of Forlì with its real oenological craftsmen specialized in the production of wooden items including barrels, barrels for vinegar and wine, supplies for viticulture, vats, and tubs.

The barrels are made with cutting-edge machinery and ideal for spirits, sweet wines and balsamic vinegar ageing. The vats made by Fratelli Romualdi's company can vary the capacity from a few liters up to 2,500 hl. They are made of woods suitable for the product to age and allow the draft with a simple key.
